## Majors Receive New Badges to Reflect Title Change

**Wednesday, October 08, 2008-** Five department command staff members were pinned with their new badges on October 8th by Chief Tony Bollinger. The badges reflect the new title of "Major", which replaces the title of "Commander". Although there is no change in rank, pay, or assignment, the department made the change to make all department ranks consistent with a paramilitary organization. The need for the change was recognized during the accreditation process our department is currently undergoing. The department's command staff consists of 5 Majors, 2 Lieutenants, and 1 Manager (civilian).

The undergoing accreditation process is expected to result in a number of positive changes for our department' organization and policies.
