Titusville PAL starts new Basketball Club

March 8, 2006 - Titusville PAL is now accepting registrations for boys and girls ages 12 and under for a basketball club. Registration for this new and exciting program is now in progress, and the cut off date is March 31, 2006. The mission of the club is to instill skills in the youth necessary for social and academic success including teamwork, a diligent work ethic and the development of individual self-esteem. This is to be accomplished through the sport of basketball. This promotion will be through regularly scheduled training, individualized instruction, competitive opportunities and the creation and maintenance of competitive traveling teams for different age groups. This program is limited to 100 participants and interested parents should get their youth to register as soon as possible. For more information and registration forms on this new and exciting program contact Officer Chuck Price at the PAL Administrative office 321-268-8771.
